Tips for Parents and Other Adults For Teaching Pedestrian Safety to Children

Select a walking route with less traffic and intersections.

- Pick places where there are sidewalks or paths separated from traffic. If there are no sidewalks or paths, walk as far from the motor vehicles as possible and, if possible, on the side of the street facing traffic.
- Limit the number of street crossings. When available, cross at a location with an adult school crossing guard.
- Avoid crossing busy or high-speed streets.

Cross the street safely:

1. Stop at the curb or edge of the street.
2. Look left, right, left and behind you and in front of traffic.
3. Wait until no traffic is coming and begin crossing.
4. Keep looking for traffic until you have finished crossing.
5. Walk, don't run across the street.
