

# Study Smart

When you make the most of your study time, you get more done in less time!

## Tip 1 Get Started

For many students, getting started is the hardest part of doing homework. Do you have trouble getting started on your homework?

- Yes, I put it off    Sometimes    No, I just do it

If you have a hard time getting started, begin with something easy or a subject that you like.

## Tip 2 Have a Good Study Area

A good study area should be quiet and have all of the following: good lighting, comfortable chair, place to write, supplies (paper, pencils, etc.).

John is smart, but he doesn't get very good grades on his homework. Look at the picture below and circle all of the things that make it difficult for John to do well on his homework. Hint: There are 10. (Answers on page 31.)

## Third Grade Study Skills

1. Attend school everyday

2. Study in a place that is quiet, comfortable, and distraction free

3. Find a "Study Buddy" in your class (Phone a friend)

4. Do easy assignments first

5. Use your senses- A. Look  
(sight)

at the word. Close eyes and try to see it in your mind-

B. Say the word out loud

(sound)

C. Write the word

(touch)

6. Learn how to manage your time

7. Use test taking strategies

8. Stay positive
