Instructor: Precious Wilson CIP Code 51.0801

The Medical Assistant Program prepares the student to work in entry-level positions in both the clinical and administrative departments in work places such as a physician's office, hospital, or personal health care facility.

The Medical Assistant clinical and lab areas are equipped with exam tables, EKG machines, and other medical office equipment. This will allow students to develop their skills in various patient procedures and clinical tests.

Students will also learn and develop Career Professional Development skills that they can use in daily life.
