

## Reef Sharks

Here's a big fish that makes all of the wee fish run and hide. This is a reef shark. It has that name be·cause it likes to make its home close to a reef, where there are lots of fish.

### *What Reef Sharks Look Like*

You can see that the reef shark has fins and a set of gills on its side. You can not see them from here, but this shark has lots of sharp teeth in its mouth.

### *Food Reef Sharks Like*

Would a reef shark bite you? Well, you are not the lunch that this shark would like best. A reef shark likes to feed on squid, crabs, and shrimp. But it would be smart not to get the reef shark mad at you all the same!
