

Collegiate Academy VPA Chorus Audition

Once you have completed your VPA application you will also need to complete an audition.

Chorus Auditions consist of the following components:

1. Triad factor identification - a triad will be played on the piano and the student will be asked to identify the bottom, middle, and top note of the triad by singing it back to me.
2. Vocal Range - students will sing through the high and low ends of their range to listen for clarity of tone, and intonation throughout the range.
3. Aural Recall - I will play 2 patterns on the piano that students will sing back to me.
4. Sight Singing - a short example will be shown and students will sing back the melody using solfege or neutral syllables.

VPA Audition Date

Saturday, January 17, 2026: 9:00 am - 12:00 pm Collegiate Academy

- For any students who did not audition in their middle school class (see below)
