## Suggested Course Progressions Science

All freshmen must take biology, and all sophomores must take chemistry. You are required to take a minimum of four credits in the sciences prior to graduation and must have at least one science class each year. If you are considering a career in one of the science-related fields, you should follow one of the suggested paths below.

| Career Track | Freshman Year | Sophomore Year | Junior Year | Senior Year |
| :--- | :--- | :--- | :--- | :--- |
| Biologist / <br> Geneticist | Honors Biology | Honors Chemistry <br> Human Biology <br> Anatomy/Physiology | AP Chemistry <br> Organic Chemistry | AP Biology <br> Anatomy |
| Pre-Med/ Pre-Vet/ <br> Pre-Dental/ <br> PT/Nursing / Health <br> Professions | Honors Biology | Honors Chemistry <br> and <br> Anatomy/Physiology | AP Chemistry <br> Organic Chemistry <br> Anatomy | AP Biology <br> AP Physics I <br> Organic Chemistry |
| Chemist/ <br> Biochemist/ <br> Pharmaceutical <br> Chemist | Honors Biology | Honors Chemistry <br> and <br> Human Biology | AP Chemistry <br> Organic Chemistry <br> AP Physics I | AP Biology <br> AP Physics II <br> Freshwater and <br> Marine Biology |
| Engineering: <br> Mechanical, <br> Chemical, Electrical | Honors Biology | Honors Chemistry | AP Chemistry <br> Organic Chemistry <br> AP Physics I | AP Physics II <br> AP Environmental <br> Engineering |
| Environmental <br> Engineer <br> Civil Engineer, <br> Architect | Honors Biology | Honors Chemistry | AP Chemistry <br> Engineering <br> AP Physics I | AP Physics II <br> AP Environmental <br> Engineering |
| Earth Science/ <br> Enviro. Science/ <br> Meteorology/ <br> Oceanography | Honors Biology | Honors Chemistry <br> Human Biology | AP Chemistry <br> AP Biology | AP Environmental <br> Freshwater and <br> Marine Biology |
| Non-Science Majors | Honors Biology | Honors Chemistry | Honors or <br> AP area of interest | Anatomy or <br> AP area of interest |
