

# CAMP GANNON SUMMER SCHOOL OF EXCELLENCE

JULY 11 - 15, 18 - 20

**LEARNING THAT LASTS A LIFETIME.**

This camp provides high-achieving and ambitious high school juniors and seniors (as of fall 2022) an eight-day intensive laboratory and field research experience in the sciences and engineering. Camp participants work alongside Gannon faculty members and students to explore the ecology and health of coastal areas and water bodies. Students will learn about careers in coastal zone management, ecology, and other areas of biology, environmental science and engineering, and chemistry. Participants will study Lake Erie and Presque Isle Bay aboard Gannon University's research vessel, the Environaut. This experience is sure to make your summer memorable. Space is limited, apply today.

**DETAILS:**

Grades 11 - 12

July 11 - 15, 18 - 20

8:30 a.m. - 4 p.m.
