TRANSFERRING OF BADGES: Ski/Ride passes are non-transferable. Only the person whose name appears on the badge is permitted to use that pass. This is a criminal offense in New York State. Badge privileges will be revoked indefinitely and the resort may choose to prosecute.

LEFT BADGES AT HOME: If a person leaves their badge at home, they will have to purchase lift ticket for the day and rentals if needed.

LOST BADGES: If a person loses their badge, they should stop at the snowsports desk to see if it has been turned in immediately: a replacement fee will be charged.

REVOKED BADGES: Management of the resort reserves the right to revoke any lift passes if the rules of NY State or Peak'n Peak are violated. This means getting caught going off trails may result in losing ski/ride privileges for the season.

PARENTS SHOULD BE AWARE:

If a student gets seriously injured and needs to go to the hospital, parents should be prepared to drive to the Peak to pick their student up. They do not provide ambulance transport to any Erie Hospitals. If they must go to the hospital and can't wait they will be taken to a hospital in New York State. This is obviously worst case scenario but parents should be aware that skiing and snowboarding can be hazardous and parents should be available if something were to occur. We do have a very low occurrence of serious injuries and most can be avoided by following the rules and using common sense on the mountain. Parents are also aware that the student discipline code still applies to students when outside of the school on a school organized trip. Serious violations will be turned directly over to Peek n Peak and the New York State Police.
