Career and Technical Programs

[For additional information visit our webpage at eried.org](http://eried.org) select Central Tech under schools

Patient Care Assistant: basic patient care skills, body mechanics, nutrition for adults, children and infants. Students will be able to work in entry level health careers.

Medical Assistant: office and clinical skills including typing, assisting physician, selected medical laboratory skills, and other medical practice skills.

Physical Therapy/Sports Med Asst: PT training for both sports medicine and patient recovery. Medical office and patient services skills are developed.

Nursing Assistant: basic patient care skills, body mechanics, nutrition and pathology, includes practical experience in a clinical setting.

Cosmetology/Barber: theory and practical care in skin, nails and hair. Successful candidates will earn a Cosmetology PA state license.

Digital Media: radio, television and video production for students who desire a career in broadcast and corporate communications.

Horticulture/Landscaping: lawn care and design of landscaping from basic to a full complement of brick and fountains. Greenhouse, floral design and aquaponics are part of the program.

Criminal Justice: A program that prepares individuals to perform entry-level duties as a patrolman, corrections officer, juvenile officer, security officer and probation officer. The American legal system, techniques used in the police laboratory and training in emergency and disaster situations.

Protective Services: in depth training required to perform entry-level duties as a police officer, a firefighter, emergency medical technician and other public safety related careers.

Advanced Manufacturing

Manufacturing Cluster: 9th grade students accepted into the manufacturing cluster will rotate through the three programs during the first year and be able to apply to their program of choice in their 10th grade year based student interest and performance:

- **Machine Technology:** students will train on standard machine equipment including drill press, lathe grinder, band saw, milling machines and CNC operations.
- **Pre-Engineering:** this program will offer pre-college level of design, CAD, 3D modeling and design work. Students will have the opportunity to work in teams and develop manufacturing processes.
- **Welding Technology:** will prepare students for work in this high demand field. TIG, MIG and plasma cutting are all part of the welding program.

Construction Trades: students will learn a variety of construction trades from electrical, carpentry, plumbing, masonry and Core One completion in high schools. Students will be able to move in apprenticeship programs or direct to the worksite.

Auto Body Technology: straightening, replacing, painting and finishing work on automobiles. Taking a damaged vehicle and making it look new and operational for the body and frame. Powder Coating and spray painting are a strong part of the program.

Auto Mechanics Technology: repair on automobile engines, tires, transmissions and alignments. Inspections and preventative care on motor vehicles.

Marketing/Business: designed to prepare students to enter or advance in marketing, sales, business, distribution and merchandising occupations.

Culinary Arts: use and care of kitchen equipment, menu planning, food preparation and restaurant management.

Computer Programming: fundamentals of computers are addressed. Students will learn computer programming basics and computer repair.

Non-discrimination Policy

The Erie School District does not discriminate in employment, educational programs or activities, based on race, color, national origin, sex, handicap, or because a person is a disabled veteran or veteran of the Vietnam Era. This policy of non-discrimination extends to all other legally protected classifications. Inquiries may be made by contacting Danny Jones at the School District of the city of Erie, Pennsylvania, 148 West 21 Street, Erie, PA 16502, 814/874-6000.

City of Erie Regional Career and Technical Programs are partially funded by the Carl D. Perkins Act. Any individual wishing to express any concerns may immediately direct them to Mathew E. Pundt, Director of Career and Technical Education.
