

MEDICAL CLUB

Find out if a career in medicine is right for you!

DISCUSSIONS WITH HEALTHCARE WORKERS

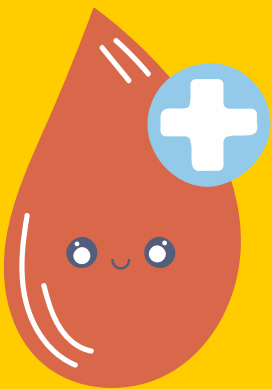

There will be weekly live Microsoft Teams meetings with healthcare professionals. Healthcare professionals will talk about the different aspects of their careers, the paths they followed to achieve their goals, and steps to take in high school/college to prepare for the medical field.

MEDICAL TOPICS

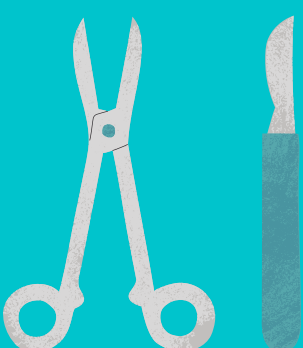

We will discuss current medical topics such as COVID-19. We will explore the changing world of medicine by examining technologies and strategies used by healthcare professionals.

BLOOD DRIVE

We may participate in a blood drive to donate blood to people in need, depending on COVID-19. Students over the age of 16 must be in good health condition, and students who are 16 years old require parental consent. **(OPTIONAL!)**

RECORDED SURGERIES

We will watch recorded surgeries to understand the techniques/methods used by healthcare professionals. If COVID-19 permits, we may be able to travel to hospitals to observe live surgeries.
