

# ReadWorks Passages

## Grade 2

Teachers,

Enclosed are ten passages from Readworks.com. They are to be used as supplemental material in order to expose students to various types of passages. They were chosen according to the grade band and lexile level appropriate for your students. There are five literature/fiction passages and five informational/non-fiction passages.

Attached to some of the passages are question and answer sets. These are to be used at your own discretion. Although included, these questions may not be Common Core or PSSA aligned. However, they would be a good place to start if you wanted to “tweak” them to align to PSSA. This would be great collaborative work with your grade level peers and instructional coach.

Below are the lexile ranges:

Grade 1: 180-400

Grades 2 and 3: 420-820

Grades 4 and 5: 740-1010
