

Name _____

Family Note

We are using a number line to count up and back. This is an introduction to addition and subtraction. Help your child answer the questions below by moving a finger from number to number on the number line. Make sure that your child is counting the number of hops and not the number themselves.

Please return this Home Link to school tomorrow.

Use the number line to help you answer the questions.

1. Start at 4. Count up 5. What number are you on? _____
2. Start at 0. Count up 3. What number are you on? _____
3. Start at 9. Count back 2. What number are you on? _____
4. Start at 12. Count back 6. What number are you on? _____
5. How many hops from 2 to 8? _____
6. How many hops from 3 to 10? _____
