

Name _____

Family Note

Students are working on collecting and analyzing data. Students will create a bar graph to organize data and then use the bar graph to answer questions.

Please return this Home Link to school tomorrow.

Directions: Use the pictures below to create a bar graph. Students voted on their favorite pets. Below are the results. Fill in the correct number of boxes on the graph to represent the number for each animal.

Pets Bar Graph							
Cat							
Dog							
Bird							

Which animal did students like most? _____

How many students liked cats and dogs together? _____ + _____ = _____
