

First grade is beginning to add ten to a 2-digit number. At this point it is very helpful for your child to draw base-10 symbols to help them do the addition. They will draw |||| to show a ten, and \bullet to show a one. The first one has been done as an example.

$45 + 10 = \underline{55}$

$39 + 10 = \underline{\quad}$

$27 + 10 = \underline{\quad}$

$68 + 10 = \underline{\quad}$

$82 + 10 = \underline{\quad}$

$29 + 10 = \underline{\quad}$
