

**Family Note**

Students are using Base-10 blocks to solve addition problems. Students are practicing exchanging single cubes for a long (worth ten) when adding. Students will need to cut out the paper base-10 blocks to help them solve.

*Please complete and return to school tomorrow.*

Directions: Use the paper base-10 blocks to solve.

1.  $9 + 4 =$

2.  $7 + 6 =$

3.  $5 + 9 =$

4.  $5 + 6 =$

5.  $9 + 7 =$
