

Name _____

Reviewing Halves and Fourths

Family Note: We are continuing to explore the concept of fractions. We have focused on identifying fractional parts of things, emphasizing that fractional parts come from dividing something into equal parts. If the parts are not equal then it is not divided into fractional parts.

Please return this Home Link to school tomorrow.

1. Circle the shapes below that are divided into fourths.

2. Circle the shapes that are divided into halves.
