

**Family Note:** Counting-back is one of the subtraction strategies that your child is learning in school.

The counting back strategy works well when the number you are taking away, the minus number, is small, like -1, -2, -3. For example, for  $8-2$ , start at 8 and count back 2 to get to 6.

## Count Back

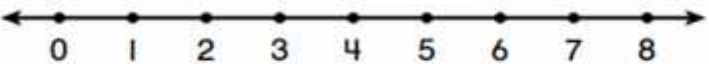

Use the number line to count back. Use the counting-back strategy.

1.  $4 - 1 = \underline{\quad}$  

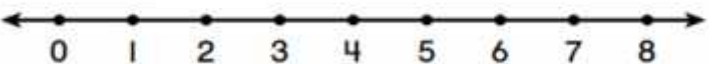

Start at 4. Count back 1.

2.  $6 - 2 = \underline{\quad}$  

Start at 6. Count back 2.

3.  $5 - 3 = \underline{\quad}$  

Start at 5. Count back 3.

4.  $2 - 2 = \underline{\quad}$  

Start at 2. Count back 2.

Write an addition fact to go with the dice.

Write down at least three different double facts!

Make sums of 10 pennies.
