

First grade is beginning to subtract ten to a 2-digit number. At this point it is very helpful for your child to draw base-10 symbols to help them do the subtraction. They will draw $|$ to show a ten, and \bullet to show a one. The first one has been done as an example.

$45 - 10 = \underline{35}$

$39 - 10 = \underline{\quad}$

$27 - 10 = \underline{\quad}$

$68 - 10 = \underline{\quad}$

$82 - 10 = \underline{\quad}$

$29 - 10 = \underline{\quad}$
