

Subtraction Maze**Family Note**

For homework, your child will practice subtraction facts like the ones we have been working on in class. To help identify the path from the dog to the ball, have your child circle the differences of 3, 4, and 5.

Please return this Home Link to school tomorrow.

Help the dog find her ball. Solve all of the problems. Then draw the dog's path by connecting facts with answers of 3, 4, or 5. You can move up, down, left, right, or diagonally as you move between boxes.
