

Addition/Subtraction Facts

**Family Note**

For homework, your child will practice addition and subtraction facts like the ones we have been working on in class. Help your child solve the problems and identify the path from the bird to the seeds by circling all the cells with the answer 6.

Please return this Home Link to school tomorrow.

The bird wants to eat the seeds. Solve all of the problems below. Then draw the bird's path by connecting facts with an answer of 6. There are addition and subtraction facts. Watch for + or -.
