Home Link 5-3 Pockets Bar Graph

Family Note: Help your child fill in the table below. Then display the data by making a **bar graph**. Please return this Home Link to school tomorrow.

1. Pick five people. Count the number of pockets that each person's clothing has. Complete the table.

2. Draw a bar graph for your data. First, write the name of each person on a line at the bottom of the graph. Then color the bar above each name to show how many pockets that person has.

Name	Number of Pockets

How Many Pockets?
