

**Home Link 7-7 Coin Combinations**

**Family Note:** In the next lesson, we will extend our work with money to include dollars. In preparation for this, we have been practicing counting coins. If your child has difficulty with some problems on this page, use real coins to model the situations. Arrange the coins in groups of like coins and count the coins of the highest value first.

*Please return this Home Link to school tomorrow.*

**1. Mark the coins you need to buy an eraser.****2. Mark the coins you need to buy a box of crayons.**

Home Link 7-7 Coin Combinations *continued*

Martina saved her money.  
How much did she save each month?

3. September Total: \_\_\_\_\_ ¢
