

Home Link 9-4 Temperature

Family Note: In today's lesson, your child solved problems involving temperatures. On the thermometers on this Home Link, the longer degree marks are spaced at 2-degree intervals. Point to these degree marks while your child counts by 2s; 40, 42, 44, 46, 48, 50 degrees.

Problems 6 and 12 involve temperatures that are an odd number of degrees. Help your child use the shorter degree marks to get the correct answers.

Please return this Home Link to school tomorrow.

Write the temperature shown on each thermometer.
