Creating Scaled Bar and Picture Graphs

There have been twenty-nine cars sold at a car lot so far this month. The tally chart to the right shows how many cars of each color have been sold. Use the data to create a scaled bar graph and picture graph. Remember to add titles and labels to your graphs. Also, add a key for your picture graph.

Blue	
Green	
Red	
Black	
Silver	

1. What color car has the most sales?

2. What is the least popular color car?

3. How many more red cars than green cars have been sold? _____

Key:  = _____
