

TIPS TO IMPROVE CRITICAL THINKING/STUDY SKILLS AT HOME:

While reading any text or primary source documents:

- Encourage questioning/discussion regarding text. Use starters such as *explain, describe, summarize, compare* to make your students accountable for what they are reading.
- Highlight main ideas, key vocabulary, people, places, dates, etc.
- Annotate: Create notes or use post-its to document real life connections, past text connections, summaries or questions you still have regarding content.
- If questions accompany text, suggest that students read the questions before reading the text.

While studying or mastering content:

- Create foldables, flashcards or graphic organizers focusing primarily on new or challenging material
- Review new material daily
- Master new vocabulary words reviewing them, finding synonyms, or using them in sentences
- Attend special help for study sessions
- Be aware of grades/missing work
